Permissions

Permission is hereby granted, free of charge, to any person obtaining a copy of this specification (the "Specification"), to make use of the Specification without restriction, including without limitation the rights to implement the Specification in a software program, deploy the Specification in a network service, and copy, modify, merge, publish, translate, distribute, sublicense, or sell copies of the Specification, and to permit persons to whom the Specification is furnished to do so, subject to the condition that the foregoing copyright notice and this permission notice shall be included in all copies or substantial portions of the Specification. Unless separate permission is granted, modified works that are redistributed shall not contain misleading information regarding the authors, title, number, or publisher of the Specification, and shall not claim endorsement of the modified works by the authors, any organization or project to which the authors belong, or the XMPP Standards Foundation.

Warranty

NOTE WELL: This Specification is provided on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE.

Liability

In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall the XMPP Standards Foundation or any author of this Specification be liable for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising from, out of, or in connection with the Specification or the implementation, deployment, or other use of the Specification (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if the XMPP Standards Foundation or such author has been advised of the possibility of such damages.

Conformance

This XMPP Extension Protocol has been contributed in full conformance with the XSF's Intellectual Property Rights Policy (a copy of which can be found at <<https://xmpp.org/about/xsf/ipr-policy>> or obtained by writing to XMPP Standards Foundation, P.O. Box 787, Parker, CO 80134 USA).

1 Poem

'Twas the night before Christmas,

```

<iq from='narrator@twas-the-night.lit/home'
    id='time1'
    to='twas-the-night.lit'
    type='get'>
<time xmlns='urn:xmpp:time'/>
</iq>

<iq from='twas-the-night.lit'
    id='time1'
    to='narrator@twas-the-night.lit/home'
    type='result'>
<time xmlns='urn:xmpp:time'>
<tzo>-05:00</tzo>
<utc>1807-12-25T04:58:35Z</utc>
</time>
</iq>
```

When all through the house,
Not a creature was stirring, not even a mouse:

```

<presence from='mouse@twas-the-night.lit/house'>
<show>xa</show>
<status>zzz</status>
</presence>
```

The stockings were hung by the chimney with care,
In hopes that St. Nicholas soon would be there;
The children were nestled all snug in their beds,

```

<message from='child@twas-the-night.lit'

```

When out on the lawn there arose such a clatter,
I sprang from the bed to see what was the matter.
Away to the window I flew like a flash,
Tore open the shutters, and threw up the sash.
The moon on the breast of the new-fallen snow
Gave the lustre of mid-day to objects below,
When, what to my wondering eyes should appear,
But a miniature sleigh, and eight tiny rein-deer,

```

```

He was dressed all in fur, from his head to his foot,
And his clothes were all tarnished with ashes and soot;
A bundle of toys he had flung on his back,
And he looked like a peddler just opening his pack.
His eyes -- how they twinkled! his dimples how merry!
His cheeks were like roses, his nose like a cherry!
His droll little mouth was drawn up like a bow,
And the beard of his chin was as white as the snow;
The stump of a pipe he held tight in his teeth,
And the smoke it encircled his head like a wreath;
He had a broad face and a little round belly,
That shook, when he laughed, like a bowlful of jelly.

He was chubby and plump, a right jolly old elf,
And I laughed when I saw him in spite of myself;

2 References

The foregoing poem, informally known as 'Twas the Night Before Christmas but formally entitled Account of a Visit from St. Nicholas, was authored by Major Henry Livingston Jr. in 1807 or 1808.¹

This document makes reference to the following XMPP protocols:

- [RFC 6121](#)²
- [Multi-User Chat \(XEP-0045\)](#)³
- [Publish-Subscribe \(XEP-0060\)](#)⁴
- [User Geolocation \(XEP-0080\)](#)⁵
- [Legacy Entity Time \(XEP-0090\)](#)⁶
- [User Mood \(XEP-0107\)](#)⁷
- [User Activity \(XEP-0108\)](#)⁸
- [Personal Eventing Protocol \(XEP-0163\)](#)⁹

Note: For the sake of brevity, not all protocol exchanges are shown above. Refer to the appropriate specifications for detailed protocol descriptions.

¹As noted at <<http://rpo.library.utoronto.ca/poem/1312.html>>, "In the year 2000, Don Foster, an English professor at Vassar College in Poughkeepsie, New York, used external and internal evidence to show that Clement Clarke Moore could not have been the author of this poem, but that it was probably the work of Livingston, and that Moore had written another, and almost forgotten, Christmas piece, Old Santeclaus. Foster's analysis of this deception appears in his Author Unknown: On the Trail of Anonymous (New York: Henry Holt, 2000): 221-75." See also <<http://rpo.library.utoronto.ca/poet/204.html>> and <<http://www.henrylivingston.com/>>.

²RFC 6121: Extensible Messaging and Presence Protocol (XMPP): Instant Messaging and Presence <<http://tools.ietf.org/html/rfc6121>>.

³XEP-0045: Multi-User Chat <<https://xmpp.org/extensions/xep-0045.html>>.

⁴XEP-0060: Publish-Subscribe <<https://xmpp.org/extensions/xep-0060.html>>.

⁵XEP-0080: User Geolocation <<https://xmpp.org/extensions/xep-0080.html>>.

⁶XEP-0090: Legacy Entity Time <<https://xmpp.org/extensions/xep-0090.html>>.

⁷XEP-0107: User Mood <<https://xmpp.org/extensions/xep-0107.html>>.

⁸XEP-0108: User Activity <<https://xmpp.org/extensions/xep-0108.html>>.

⁹XEP-0163: Personal Eventing Protocol <<https://xmpp.org/extensions/xep-0163.html>>.

3 Architectural Assumptions

This document assumes the following architecture:

In addition, we assume that the twas-the-night.lit server is running a virtual pubsub service for each account it hosts (in accordance with [Personal Eventing Protocol \(XEP-0163\)](#)¹⁰) and that the users "narrator", "mama", and "child" publish information to personal pubsub nodes related to mood (XEP-0107), activity (XEP-0108), and physical location (XEP-0112).

Because millions of people track the movements and activities of Santa, northpole.lit runs a highly scalable, standalone pubsub service instead of PEP at Santa's bare JID.

* The U.S. Military divides its operations geographically among NORTHCOM, SOUTHCOM, EUCOM, and PACOM. Given the scale of operations implemented by Santa's workshop, it comes as no surprise that the command center at the North Pole is known as POLE-COM. Naturally POLECOM subscribes to the pubsub feeds for Santa's geolocation and activity, as well as the sleigh's geolocation, just in case a search and rescue mission needs to be initiated.

¹⁰XEP-0163: Personal Eventing Protocol <<https://xmpp.org/extensions/xep-0163.html>>.

4 Internationalization Considerations

The protagonist of this poem is variously called (in English) St. Nicholas, St. Nick, Santa Claus, Kris Kringle, and bears a striking resemblance to the Sinterklaas of Dutch legend. Use of the name "St. Nicholas" is not meant to disparage other names for this character in English or any other language.

5 Security Considerations

It is NOT RECOMMENDED for mere mortals to fly in reindeer-powered sleighs, to enter and exit houses through chimneys, or to perform other dangerous acts described herein.

6 IANA Considerations

This document requires no interaction with the [Internet Assigned Numbers Authority \(IANA\)](#)¹¹.

7 XMPP Registrar Considerations

This document requires no interaction with the [XMPP Registrar](#)¹².

¹¹The Internet Assigned Numbers Authority (IANA) is the central coordinator for the assignment of unique parameter values for Internet protocols, such as port numbers and URI schemes. For further information, see <<http://www.iana.org/>>.

¹²The XMPP Registrar maintains a list of reserved protocol namespaces as well as registries of parameters used in the context of XMPP extension protocols approved by the XMPP Standards Foundation. For further information, see <<https://xmpp.org/registrar/>>.
